

Haoming Li

Email: haoming.li@duke.edu
Homepage: <https://haoming.li>

EDUCATION

- **Duke University** Durham, NC
M.S., Economics and Computation *Sept 2018 - present*
 - **Notable Courses:** Computational Microeconomics, PhD Econometrics
- **Rensselaer Polytechnic Institute** Troy, NY
B.S., Computer Science and Economics, summa cum laude *Sept 2014 - May 2018*
 - **Notable Courses:** Approximation Algorithms, Game Theory, Graph Theory, Machine Learning

PUBLICATIONS AND PRESENTATIONS

- Sujoy Sikdar, Rohit Vaish, Haoming Li, Junming Wang, Lirong Xia and Chaonan Ye. Minimizing Time to Rank by Sorting: A Learning and Recommendation Approach. Working paper.
- Zhibing Zhao, Haoming Li, Junming Wang, Jeffrey Kephart, Nicholas Mattei, Hui Su and Lirong Xia. A Cost-Effective Framework for Preference Elicitation and Aggregation. In *Proceedings of the 34th Conference on Uncertainty in Artificial Intelligence (UAI-2018)*, Monterey, California, USA, 2018. [arXiv] [Poster]
- Haoming Li, Lirong Xia and Zhibing Zhao. Eliciting Preferences By Comparing Candidates. Presented at the 6th IBM Research Cognitive Colloquium, Yorktown Heights, New York, USA, 2017. [Poster] [YouTube]

RESEARCH/TEACHING EXPERIENCE

- **Cognitive and Immersive Systems Lab** Troy, NY
Undergraduate Researcher supervised by IBM Research *Apr 2017 - Apr 2018*
 - **Group Decision-Making:** Implemented a criterion of Bayesian experimental design to elicit preferences under random utility model by asking agents to rank-order sets of candidates.
 - **Online Voting System:** Co-developed opra.io, which implements 15 polling and allocation mechanisms and 5 voting interfaces to help group decision-making.
- **Rensselaer Polytechnic Institute** Troy, NY
Course Mentor in Undergraduate Algorithms *Sept 2016 - Dec 2017*
 - **Labs and Recitations:** Tutored, for 3 semesters, in divide-and-conquer, randomized algorithms, graph theory, running time analysis, greedy algorithms and dynamic programming, and NP-Completeness.

WORK EXPERIENCE

- **Tencent America** Palo Alto, CA
Software Engineer (Internship) *May 2016 - Aug 2016*
 - **Database Synchronization:** Designed and implemented a database script for a WeChat client, which updates a WordPress site based on multiple databases.
 - **Website Builder:** Created a web app that, given the specification, one-click-generates live-ready websites that are fully responsive and multilingual.
- **FiberHome Telecommunication** Nanjing, China
Software Engineer (Internship) *Jun 2015 - Aug 2015*
 - **Software Optimization:** Designed and implemented a searching algorithm related to Aho-Corasick algorithm, fuzzy pattern matching and finite-state automaton. The entire software runs twice as fast since.
 - **Client Visits:** Set up and configured new version of the product on clients' servers on-site.
